Education

B.Sc. Computer Science

Simon Fraser University, Burnaby, BC

Expected Dec 2026

- Awards: President's Honor Roll, Dean's Honor Roll, Undergraduate Open Scholarship

Work Experience

Application Developer Co-op

Insurance Corporation of British Columbia, North Vancouver, BC

May 2025 – Dec 2025

- Reduced delivery time by **80%** by strategically utilizing **Amazon Q** into the development workflow.
- Scaled a low-code application into a robust, maintainable solution by rebuilding it with **React** and **Spring Boot**.
- Automated build and deployment workflows using **Docker** containers and **GitLab CI/CD** pipelines.
- Documented **AI-assisted development** practices to standardize **Amazon Q** usage across the team.
- Built a reusable UI component library to ensure consistency and speed up feature development.

Computer Engineer Co-op

BC Hydro, Vancouver, BC

Sep 2024 – Apr 2025

- Maintained and optimized **SQL queries** to retrieve data for troubleshooting, reporting, and validation.
- Performed **functional testing** and oversaw **user acceptance testing**, documenting technical processes.
- Bridged communication between stakeholders and developers, translating requirements and relaying feedback.

Volunteer Experience

W3 Committee Developer

SFU Computing Science Student Society, Burnaby, BC

May 2025 – Present

- Built and maintained the CSSS website backend REST API with **Python**, **FastAPI**, and **PostgreSQL**.
- Developed a responsive touchscreen kiosk web app using **Angular**, **TypeScript**, and an **Express** proxy backend.

Developer

SFU Surge, Burnaby, BC

Aug 2025 – Present

- Built a full-stack hackathon platform with **Next.js** that supports **1,500+ users annually**.
- Created hackathon websites using **Svelte** to share event information, schedules, and registration details.

Technical Skills

- **Programming Languages:** Python, Java, C, C++, JavaScript, TypeScript, SQL, HTML/CSS
- **Frameworks/Libraries:** React, React Native, Next.js, Svelte, Express, Flask, Spring Boot, Tailwind CSS
- **Developer Tools:** Git, GitHub, GitLab, Docker, Postman, Swagger, Jira, Selenium, Detox
- **Machine Learning:** PyTorch, TensorFlow, Scikit-learn, OpenCV, YOLOv5, NLTK, Hugging Face Transformers
- **Cloud & Databases:** AWS, GCP, Vercel, Firebase, PostgreSQL, MongoDB, Redis

Projects

Hope Health Action | React, TypeScript, React Native, Python, Docker, AWS, Detox

- Expanded rehabilitation service access for refugees in Uganda via a **React** web and **React Native Android** app.
- Improved Android reliability with **Detox** end-to-end tests integrated into **GitHub Actions CI**.
- Monitored system metrics and errors with **AWS CloudWatch**, **SNS**, and **Fluent Bit**.
- Deployed the application on **Vultr** cloud infrastructure with automated backups stored in **AWS S3** buckets.

SFU Surge Hacker Portal | Next.js, React, TypeScript, PostgreSQL, Drizzle ORM, tRPC, Tailwind CSS, Vercel

- Built a full-stack hackathon management portal with **Next.js**, **TypeScript**, **tRPC**, and **PostgreSQL**.
- Centralized applicant review, QR check-ins, email queues, and voting into a single admin portal.
- Integrated **Cloudflare R2** and **Vercel Blob** storage for resumes, images, and submitted project assets.
